Why Bursaries Matter

At Victoria College, we believe that talent, aspiration and character should determine a young person's future, never their financial circumstances. Creating an inclusive environment where every pupil can thrive has always been central to our vision, and bursaries are one of the most important ways we achieve this.

A bursary is far more than financial assistance. It provides access to an exceptional education, inspiring teaching, outstanding co-curricular opportunities and a community that encourages every student to become respectful, resilient and aspirational. The benefits extend beyond the individual recipient; bursaries enrich the College by bringing together students from different backgrounds, experiences and perspectives, strengthening the vibrant and supportive community that defines Victoria College.

Today, around 5% of our students receive bursary support. We are proud of the opportunities this creates, but we believe we can go further. The Victoria College Foundation's ambition is to increase bursary provision to 10% of the student body, bringing the College into line with the average level of bursary support offered by leading independent schools across the United Kingdom.

Every additional bursary represents an investment in a young person's future. It opens doors that might otherwise remain closed, enabling talented young people to fulfil their potential while enriching our school, strengthening our Island community and creating a lasting legacy for generations to come.

Dr Gareth Hughes
Head Teacher

Paul Willing
Victoria College Foundation, Chair of Board of Directors

"The bursary scheme changed my life, giving me opportunities I never would have had and hope for my future"

Former Bursary Student Evan Leframboise

"By removing financial barriers, we open doors to the world of opportunity that a Victoria College education provides."

Paul Willing, Chair, Victoria College Foundation

Why Become a Bursary Partner

A Bursary Partnership is more than a sponsorship opportunity, it is a commitment to investing in the future of Jersey.

By supporting bursaries, your organisation helps ensure that talented young people can access a world-class education regardless of financial circumstance. At the same time, you become part of a community of organisations that share Victoria College's commitment to opportunity, inclusion and aspiration.

Alongside the opportunity to transform lives, Bursary Partners can engage with students through careers initiatives, mentoring, networking events, work experience and wider school activities, helping to inspire future generations while raising the profile of their organisation within the Victoria College community. Subject to the level of commitment, Bursary Partners can also engage with students after they have concluded their time at Victoria College, and also with parents.

Together, we are investing in potential, transforming futures and creating opportunities that will benefit our students, our community and our Island for years to come.

"By supporting bursaries, you are not simply helping someone attend school. You are helping them become someone they may not yet know they are capable of becoming."

Former Victoria College Bursary Recipient

Victoria College is a Government of Jersey owned and operated school. The Foundation is an entirely separate charity, registered with the Charity Commission #412, with the sole purpose of providing bursaries at Victoria College.

Operating costs are minimal at less than 0.5% of funds raised annually, therefore over 99.5% of income goes directly to funding bursaries.

Student Testimonials

"I will forever treasure the memories I have made at Victoria College and school has helped me to become the person I am today; I know that many students of the past, present and future feel the same way."

"Victoria College has helped me gain a lot of confidence - I now feel much more comfortable with being myself and engaging with other people. It has also helped me make many new friends and prepare myself properly for a role in the adult and professional world."

"I've been given a lot of opportunities to do various activities. From internships to public speaking courses - the variety of things I have been able to do has been impressive."

Investing in Potential. Transforming Futures.
